

# Industrial washing device M01/M01p

**Manual washing M01/M01p** has a wide range of applications.

It's a part washing device for industrial cleaning and degreasing.

A high-quality stainless steel washing machine is widely used in industries where cleaning is a basis of a well- done service. There are no filters to change- it spares time and money.

Our design makes the deposit /sludge gather in the easy accessible and removable place. In the same time the service is done and detergents changed.

Heating function enables to wash dirty parts at 50°C, which significantly improves the effects.

The machine is equipped with a compressed air gun for drying parts.

## – MODELS

M 01 - standard version

M 01p - standard version with a pneumatic opening.

Technical table	M01/M01p
Closed machine dimensions (WxDxH)	810x740x1555
Open machine dimension (WxDxH)	810x740x2006
Washing capacity (WxDxH)	800x560x700
Washing pump	50 bar
Washing heating	2 kW
Supply voltage	230V
Load capacity	80 kg

Dimensions	
W (width)	810
H (height)	1555
O (opened height)	2006
D (depth)	740
WS (washing space) W+D+H	800x560 x700

- all (incl. electric box) in stainless steel
- 50 bar pressure/ 50°C
- high pump efficiency 17 l/min
- high pressure washing nozzle (15°)
- compressed air blowing gun
- washing activated by pedal
- 100 % natural latex gloves
- pump resistant to dirt
- easy to move tank, sliding on wheels in and out
- easy to operate and service

The machine is easy to transport thanks to possibility to get dismantled in three parts and ready back to use in just 30 min.

## PRICE

**standard version** : 4620 EUR

**pneumatic version** : 5350 EUR

Prices are subject to change.

Prices are calculated on EXW Katowice Poland basis.
